Narrative: Summarize in the space provided your entity's recent efforts to increase transparency in the area of Traditional Finances. Be sure to:

- a) provide explanations for any terminology that appears in the summary,
- b) describe any benchmarks, standards or best practices your entity uses to gauge its progress in this area, and
- c) detail any historical analysis used to track its efforts to improve transparency in this area.

The Financial Transparency area of Gilmer Independent School District's (ISD) website is devoted to increasing the level of transparency and community engagement by providing essential financial information about the district. Gilmer ISD is committed to sharing both current and historical information about the district's revenues, expenditures, tax rates and collections, and other areas of interest to taxpayers, parents, and the public at large. The information is provided in various formats so as to make this information accessible and meaningful to all concerned.

School districts are required to submit Public Education Information Management Systems (PEIMS) data to the Texas Education Agency each year. The Fall Submission includes data on student demographic and academic performance, personnel, budget, and organizational information as of the last Friday in October. The Mid-Year Submission contains the audited financial records of the school district for the most recently completed fiscal year end.

Note: To complete your application, see the specific criteria page for the Traditional Finances Transparency Star which details visualizations, documents, downloadable data and other required information.
