Step Thirteen (Optional Editing the Question/Removing a Question): You can change the question or the answer choices. Just click in the cell and make the necessary changes. After you have made the changes, you hit finish and it takes you back to the test. You can also remove a question from your test from this screen. Click on the red remove button in the lower right hand corner, and the question will be removed from the test.

Step 16: Printing your answer booklet is the last thing you need to do, but you have options. You can change the size of the print from larger to smaller by clicking on the squares with an “A” in them. The square with the “M” in it allows to make a modified booklet that would look like a STAAR M test. The font is larger and the question goes across the entire page. After you have selected the format, click on print and hit Print Test Booklet. You also need to click on Print Test Key so you will have a key to your test.
